(54) Title: FLEXIBLE ELECTRICALLY SWITCHABLE GLAZING STRUCTURE AND METHODS OF FORMING SAME

(57) Abstract: Flexible electrically switchable panels or glazing structures and methods of manufacturing such flexible electrically switchable panels or glazing structures are provided. Particularly, methods and processes are disclosed that enable fast and efficient cutting and shaping of flexible glazing structures into any desired shape and size. In certain embodiments, methods and processes are disclosed whereby barrier lines are formed to define regular or irregular cutting lines and seals. In further embodiments, methods and processes are disclosed whereby notches are defined to expose upper and lower substrate conductive surfaces. In still further embodiments, methods and processes are disclosed whereby glazing structures of irregular shapes and sizes are formed.
